If it were not for the information which comes to it unodicially, yet is Frown to be reliable, the State Department would be unable to affirm even the existence of the pact. So, been possible to go very far in the direction of protesting against Russia's course. The State Department has from the beginning sought to discourage any kind of secret arrangement touching China, so that the Russian agreement, regardless of its details, would still be objectionable from this point of view.

The objection to the Russian move has not crystallized up to this moment, and it is felt there is every prospect of a consummation of the arrangement between Russia and China, unless the other powers, W. Ryan, cashier of the Halifax National which now hang undecided, speedily come | Bank, was shot to death to-day by Henry would regard as of secondary importance is grave danger that, by an undue insistence by the ministers at Pelting on the collection of impossible indemnities and the continuance of punitive measures, the United States government will be obliged, in deference to public sentiment here, to maintain an attitude of exact neutrality and withhold any assistance that might be otherwise reasonably requested, in the greater purpose of checking the consummation of an agreement which is almost certain to result in the partition of China. So, as already stated, Special Commissioner Rockhill is acting under the instructions of the department, doing his best to keep bound of the ability of the Chinese government to meet, thereby following the consistent policy of the department, laid down as far back as last summer.

Such information as has come to the ofbcials indicates that the Russian agreement consists of twelve articles. On their face, it is said, they show a return of Manchuria to China, which would seem to be quite in keeping with the desire of all the powers. But this is accepted upon certain conditions imposed upon China, and it is understood that these conditions, in effect, establish a Russian suzerainty over Manchuria, with a Russian official occupying the chief executive position, quite similar to that of the British viceroy of India. Comparing this condition with that in In-dia, it is said that if the present agree-ment is consummated Manchuria will be much in the same position as one of the indian states, having a certain degree of independence and yet conforming all its actions to the supreme authority over it." Chinese affairs received considerable attention at the State Department to-day, as the Chinese minister, the British ambassador and the Russian ambassador followed each other in long conferences with Mr. Hay. It is understood that in the informal discussion with Count Cassini an earnest intimation was conveyed to him that it would be most helpful in dealing with the subject if a clear and explicit understanding of Russia's plans in this particular matter were forthcoming.

CHARGED WITH LARCENY.

Clairvoyant Accused by a Grand Rapids Woman-One Hypnotic Phase.

NEW YORK, March 14.-Miss Ethlynn Quimby, of Grand Rapids, Mich., appeared in the Police Court to-day as complainant against Mrs. Belle Fitzgerald, who is otherwise known as Mme. Zingara, fortune teller and clairvoyant. Miss Quimby charges Mrs. Fitzgerald with the larceny of \$600 in April, 1900, at Grand Rapids, when she was known as Mildred Fenton.

Mrs. Fitzgerald, or Zingara, has been in brought here from Chicago on two charges of grand larceny. She was indicted on these charges, but the indictments were dismissed on Tuesday. She was then rearrested and held to await the arrival of Miss Quimby. Miss Quimby was accompanied from Gand Rapids by Sheriff Chap-She is the daughter of the late L. ARMY ANNOUNCEMENTS

APPOINTMENTS NOT PROBABLE UN-TIL EARLY NEXT WEEK.

terday Before the President's Departure for Indianapolis.

WASHINGTON, March 14.-Col. William Carey Sanger, of Sangerfield, N. Y., to-day was appointed assistant secretary of war and immediately entered on the discharge of the duties of his office. His commission was made out at the War Department this morning and was signed by the President FROM GOVERNMENT OWNERSHIP OF during the forenoon. Soon afterward Col. Sanger appeared at the War Department and in the private office of Secretary Root, with Lieutenant General Miles and Chief to the regulation oath of office. Colonel Sanger is the guest of Secretary Root, who to-day presented him to the President.

The following official statement was made by the secretary of war this afternoon in relation to the appointment: "Some time tration and before the reappointment of the Cabinet Assistant Secretary Meiklejohn notified the President that by reason of his attending it and the necessity that there devoted much of his time to the consideraappointment. William Carey Sanger has accordingly been appointed, and will immediately enter upon the discharge of his

duties." Senators Platt and Depew, of New York, called at the White House to-day and were with the President for an hour. When they left the following official statement was made as to their visit: "The New York senators, Platt and Depew, called on the President this morning, and for the first time the subject of Coionel Sanger was referred to. Having gone over the matter fully with the secretary of war, they desired to offer no opposition to Col. Sanger's appointment. While the New York senators had been disposed to oppose Col. Sanger, they realized that the assistant of a Cabinet officer should be in harmony with his chief, and they decided not is carry their opposition any further. Colonel Sanger's confirmation by the Senate will not be opposed by them.

Great agitation among the candidates for army appointments now in Washington resulted from a long visit to the White House to-day by Secretary Root and Adjutant General Corbin. It was known that for the past two or three days the President had been endeavoring to arrange all or nearly all of these troublesome appointawaiting action on applications they have filed. But after two hours spent in close conference Secretary Root came away from the White House leaving the appointments still to be finally arranged, though it is expected that an end can be reached in the course of a few days. Among those who called at the White House to-day were Senators Allison, Frye, Beveridge, Burton, Bate, Cullom, Jones of Arkansas, and Representatives Long of Kansas, Tawney of Minnesota, Gaines and Carmack of Tennessee, and Gordon of Unio. The President informed Senator Cullom that circumstances would compel him to leave the name of ex-Representative Rodenburg, of Illinois, off the list of commissioners to the St. Louis exposition. The President has decided not to announce the membership of the commission until after his return from Indianapolis.

Attorney General Griggs talked with the President to-day about a number of places under the Department of Justice, the terms of the incumbents being about to expire. These include a large number of United States district attorneys and marshals. Except where charges have been made against ncumbents, or where the senatorial status has changed, the incumbents will be reappointed as their terms expire. In a few instances new senators have succeeded to those who secured appointments four years ago. In a general way it can be said that the new senators will be allowed to exercise their prerogatives and name men of their own selection if they are not satisfied with the present officials.

W. E. Fuller, of West Union, Ia., will accept the appointment as assistant attorney general, made by President McKinley several days ago. The story of his declination is without authority. Announcement of his acceptance was made to-day on the authority of his son-in-law.

DEFICIT WOULD RESULT

THE TELEGRAPH LINES.

Clerk Schofield as witnesses, he subscribed Opinion of Vice President Clark, of the Western Union-Question of Rates-Situation in Cuba.

WASHINGTON, March 14.-Thomas F. Clark, vice president of the Western Union Telegraph Company, testified before the industrial commission to-day concerning the candidacy for the Senate, the long canvass relations of the telegraph to the public. He tion of the wisdom of government ownership of the telegraph. Those who based their advocacy of the system upon its working in Great Britain, Belgium and Switzerland, he said, ignored vital differences between the conditions of those coun tries and the United States. In this country, Mr. Clark said, there are only sixtyseven people to each mile of wire, while there are in Great Britain 130 people to the mile, in Switzerland 220 and in Belgium 321. In the United States there are 1,118,086 miles of wire and in all of Europe 1,585,267 miles. All told, he said, there are 29,000 places in the United States reached by the telegraph companies, while in Great Britain there are only 10,186 places thus reached. In this country almost 50 per cent, of the postoffices have telegraph connections, while in Great Britain only about one-quarter of them are thus equipped.

> While admitting that rates on local messages in Europe are lower than in the United States, Mr. Clark contended that or hrough messages they are considerably higher. Mr. Clark said that the capitalization of the Western Union Company amounts to \$703 per mile of poles, or \$141 per mile of wire. In Great Britain the capitaiization was about twice as great. Referring to the consolidation of the various original lines into the Western Union system, he said it had been necessary in orfacilitate through business. The result also had been a vast reduction in rates of transmission, the present maximum rates being in many cases not more than one-tenth of the rates in 1866. Now the rates are as reasonable, he said, as they could be made consistent with good business management He said it could not be expected that the owners of telegraph lines would sell at the mere cost of production. They, like the owners of any profitable property, had a right to expect something for good will. etc. He also argued that the cost of construction of a telegraph system is not confined to the lines throughout the rural districts, but is due largely to city conditionsthe construction of buildings and underground conduits and the securing of other terminal facilities. He estimated that there had been spent on the Western Union system, since 1865, not less than \$50,000,000 or \$60,000,000 entirely outside of construction. He quoted the chancellor of the exchequer of Great Britain as saying there had been a loss to the government of about \$22,000,000 on the telegraph system of that country. If there had been such a descit there, what, Mr. Clark asked, could be expected in a country like the United States, twenty-five times as large? Mr. Clark claimed that the Western Union rates were reasonable and the result of very careful study and adjustment. He thought any radical reduction would be followed by disaster to the stockholders and would result in no benefit to the public at large. There certainly would be a deficit, and, in case of government ownership, the burden simply would be shifted from the stockholders

"Didn't you meet the rates of the Baltimore & Ohio telegraph lines when they were in operation?" was asked. "Yes," the witness replied, "and stopped Mr. Clark said that in carrying the gov- Murphy, Columbus, \$319. ernment business between the United States and Cuba, the International Company. which is under the control of the Western Union, and which carries government business free of charge, had carried more messages for the United States in one year than it had carried for Spain in thirty years. This explanation led to the inquiry whether the Western Union had not been pursuing this course for the purpose of keeping the Postal Company out of Cuba. "No, sir," was the reply. "We are simply keeping our contract like honest men.' "But it is a fact that you are fighting the right of the Postal Company to get a foothold in Cuba?

beg pardon; they are fighting our rights there. "Is anything being done to bring about a combination with the Postal Company?" "Not to my knowledge. I have seen such a report in the newspapers, but I know nothing about it. Mr. Clark added, in reply to questions, that there was an understanding as to rates between the two companies.

END OF A LONG FEUD.

Bakers, Howards, Garrards, Whites and Philpots to Live in Peace.

LONDON, Ky., March 14.-The factions in the Baker-Howard feud in Clay county have been pacified, including the Whites, the allies of the Howards, and the Garrards and the Philpots, the allies of the Baker cian. Through the influences of E. B. Tipsley, the newly appointed circuit judge for this district, the warring factions have been brought together, have agreed to lay cown their arms and to let the law take its course. Already twenty-two of the warriors have enlisted in the army at the recruiting station here. The terms agreed on are these: Each side disarms its followers and these followers disperse. The principals on each side undertake to guarantee the personal safety of the principals on the other side The feud dates back to about the year 1844 when Dr. Baker killed his brother-inlaw, Daniel Bates, Bates and Baker had married into the White family, but when Baker killed Bates he put himself under
